

# Muhammad Asad

## Web Developer

I am a dedicated front-end developer with a passion for creating responsive, user-friendly web applications. Currently, I am expanding my skills in full-stack development through ongoing studies at SMIT, with a focus on mastering both frontend and backend technologies.

Bootstrap v5.3

Tailwind CSS

## PERSONAL PROJECTS

### Blogging App

- Developed a blogging app using React.js for the frontend and Firebase for the backend. Implemented responsive and clean designs with Tailwind CSS, focusing on creating a seamless user experience.

### Meme Generator App

- Created a meme generator app using Next.js, utilizing Tailwind CSS for stylish and responsive design. Focused on delivering a user-friendly experience while implementing modern web development practices.

### Weather App

- Developed a weather app using React.js, incorporating a weather API to provide real-time data. Designed with Tailwind CSS for a modern and responsive user interface, focusing on delivering accurate weather information and an excellent user experience.

### Quiz App

- Developed a quiz app using React.js, leveraging an API to fetch quiz data dynamically. Focused on creating an engaging user experience with interactive features and a responsive design.
