Web and Mobile App Development

## PERSONAL PROJECTS

### MicroFinance

- A web application built with **React.js**, **Express.js**, and **MongoDB** to manage loan records and client data. Enables efficient handling of microfinance operations through a user-friendly interface.

### Elitotech Solution

- An animated software house website built using **React.js**, **Firebase**, and **Framer Motion**. Features smooth UI transitions and a modern layout to professionally present services.

### Blogging App

- Developed a blogging application using **React.js** (frontend) and **Firebase** (backend). Ensured a clean, responsive UI with **Tailwind CSS**, optimizing performance and user experience.

### Meme Generator App

- Built an interactive meme generator using **Next.js**, leveraging **Tailwind CSS** for a modern, responsive design. Integrated dynamic image manipulation and sharing features.
